

# Request for Examination on Original Terms

## Personal Information

Name	Date of Birth (6 digits)
	ITU-mail @itu.dk

## Information on Examination

Course Title (as it is given in the Course Base)
Semester First Time Registered for the Course

### Please note the following:

1. This request for examination on original terms is a request to be examined on the terms that were valid in the semester when you first registered for the course, insofar as it is possible to meet these terms (cf. The Examination Regulations section 5.1.3). This means **that the literature and learning goals** will be the same as when you followed the course the first time, and **that the examiner and examination form will most likely be the same** as when you followed the course the first time. Consequently, **both examiner and examination form might change**, if, for instance, the examiner is no longer at ITU, or if it is considered too cost-intensive to arrange a given examination (e.g. a written examination) for only one or few students.
2. This request is not a re-registration for examination. It is not valid without a re-registration for examination made in the self-service system. To re-register, go to the self-service system [minestudieaktiviteter@itu.dk](mailto:minestudieaktiviteter@itu.dk) and register.
3. This request to be examined on original terms means that the planning and holding of the examination might take considerably longer than an examination on 'revised terms' – i.e. the terms that apply to the given course in the current semester – as special arrangements must be made. Consequently, you also agree to this by lodging this request.

Please submit the form by e-mailing it to [exam@itu.dk](mailto:exam@itu.dk)
